

HOW TO MAKE MONEY

With Claude Code & AI Chatbots

● *Complete Beginner Guide* ● *Ready-to-Send Email Templates* ● *Real Money Numbers*

Your Skill:	You can build AI chatbots using Claude Code — most businesses cannot do this
Your Market:	Thousands of small businesses in Johannesburg and South Africa
Your Cost:	Only your Claude Code Pro subscription — already paid
Earning Potential:	R5,000 – R20,000 per client · R500 – R1,500/month maintenance
Time Per Client:	3 – 6 hours to build using Claude Code
First Client:	Trendy Chillas — you already have a relationship

CHAPTER 1

Best Business Types to Target

These businesses get the most booking enquiries and lose the most money from missed calls and unanswered messages. They need an AI chatbot most urgently — and they have money to pay for it.

TOP PRIORITY TARGETS — Highest Need and Budget:

#	BUSINESS TYPE	WHY THEY NEED IT	WHAT TO CHARGE
1	Wedding Venues & Planners	Receive 50+ enquiries weekly. Miss bookings every night and weekends when office is closed.	R2,000–R15,000
2	Restaurants & Catering	Constant table reservations, event catering enquiries, function bookings. Many calls go unanswered.	R5,000–R10,000
3	Hair Salons & Beauty Spas	Appointment bookings flood WhatsApp daily. Staff waste hours managing bookings manually.	R3,500–R8,000
4	Doctors & Dentists	Appointment requests come at all hours. Receptionists cannot keep up.	R8,000–R15,000
5	Lawyers & Attorneys	Client consultation requests need immediate professional responses.	R10,000–R20,000
6	Guest Houses & B&Bs	Room booking enquiries come 24/7. Missing night-time bookings means lost income.	R5,000–R12,000
7	Event Photographers	Booking enquiries for weddings, graduations, birthdays flood their phones.	R3,500–R7,000
8	Driving Schools	Lesson bookings, licence enquiries — high volume, repetitive queries.	R3,000–R6,000
9	Funeral Parlours	Families call at any hour needing immediate professional assistance.	R8,000–R15,000
10	Car Rental & Transport	Booking requests and availability checks come constantly.	R5,000–R10,000

SECONDARY TARGETS — Good Opportunity:

BUSINESS TYPE	WHY THEY NEED IT	CHARGE
Tutoring & Education Centres	Class enrolment and schedule enquiries	R3,000–R6,000
Real Estate Agents	Property viewing bookings and enquiries 24/7	R5,000–R10,000
Gym & Fitness Studios	Membership and class booking enquiries	R3,500–R7,000
Mechanics & Panel Beaters	Booking service appointments and quotes	R3,000–R6,000
Caterers & Bakers	Wedding and event catering quote requests	R3,500–R7,000
Travel Agents	Package enquiries and booking requests	R5,000–R10,000

■ BEST
FIRST
CLIENT

Start with businesses you already know — Trendy Chillas is perfect. You already built their website which means they already trust you. A warm relationship makes closing the deal 10x easier.

CHAPTER 2

How to Find Client Email Addresses

Finding the right email is the most important step. You must reach the owner or manager directly — not a general inbox. Here are 8 proven methods to find any business email in South Africa.

STEP 1 Check Their Website Directly

- ✓ Go to the business website and look for a **Contact page** or **About Us page**.
- ✓ Look for email addresses in the footer of every page — most businesses put it there.
- ✓ Check the **FAQ page** — often has a contact email.
- ✓ Look for a **booking form** — it usually shows the receiving email address.
- ✓ Right-click → View Page Source → press Ctrl+F → search for **@gmail** or **@outlook** or **.co.za**

STEP 2 Google Search Method

- ✓ Search Google for: **"business name" email contact Johannesburg**
- ✓ Search for: **"business name" site:facebook.com** — Facebook pages always show email
- ✓ Search for: **"business name" "@gmail.com" OR "@outlook.com"**
- ✓ Search for: **"business name" owner contact South Africa**
- ✓ Usually the owner email appears in the first 3 results.

STEP 3 Google Business Profile (Most Reliable)

- ✓ Search the business name on Google.
- ✓ Look at the **Google Business card** on the right side of search results.
- ✓ Click **'See photos'** or **'Website'** — the email is often listed there.
- ✓ Click on the business name to open the full Google Business Profile.
- ✓ The **website, phone, and sometimes email** are all listed there.

STEP 4 Facebook and Instagram Method

- ✓ Go to their **Facebook page** → click **'About'** tab.
- ✓ Scroll down — most businesses list their email in the About section.
- ✓ On **Instagram** → click **'Contact'** button on their profile.
- ✓ Some Instagram business accounts show email directly on profile.
- ✓ Send a **Facebook message** first introducing yourself if no email found.

STEP 5 LinkedIn Method (for Corporate and Professional)

- ✓ Search the business name on **linkedin.com**.
- ✓ Find the owner or manager profile.
- ✓ Their email is sometimes listed on their profile.
- ✓ Send a **LinkedIn connection request** with a short professional note.
- ✓ For lawyers, doctors, corporate businesses — LinkedIn is the best channel.

STEP 6 Free Email Finding Tools

- ✓ **hunter.io** — type the business website URL and it finds all associated emails. Free for 25 searches/month.
- ✓ **rocketreach.co** — finds business owner emails. Free tier available.
- ✓ **snov.io** — email finder and verifier. Free tier available.
- ✓ **apollo.io** — massive database of business emails. Free 50 searches/month.
- ✓ These tools work best for businesses with their own domain (not gmail).

STEP 7 WhatsApp Business Method (South Africa Specific)

- ✓ Most South African small businesses list their WhatsApp number publicly.
- ✓ Send a **WhatsApp message** to introduce yourself — higher response rate than email in SA.
- ✓ Say: **'Hi, I build AI booking assistants for businesses. Could I get your email to send you some info?'**
- ✓ WhatsApp has a **90% open rate** vs email 20% — use it first when possible.
- ✓ Once they reply on WhatsApp, ask for the owner's direct email for the proposal.

STEP 8 Walk In or Call Method (Most Powerful)

- ✓ For local Johannesburg businesses — **walk in and ask for the owner.**
- ✓ Say: **'Hi, I specialise in AI booking systems for businesses like yours. Could I get 5 minutes of the owner's time or their email?'**
- ✓ This works especially well for restaurants, salons, and small shops.
- ✓ Calling the business directly and asking for the owner's email also works very well.
- ✓ Personal contact has the highest conversion rate — much better than cold email.

■ **SUCCE** Walk in or call = 60% response | WhatsApp = 45% response | Email = 20% response | LinkedIn =
SS 30% response. Always try WhatsApp or phone first for SA businesses.

CHAPTER 3

What to Say — Message Templates

Use these exact templates. Each one is written to get a response. Personalise the business name and type — do not change the structure.

TEMPLATE 1 — First Contact Email (General Businesses):

Subject: Your business is losing bookings every night — I can fix that

Hi [Owner Name],

My name is [Your Name] and I specialise in building AI booking assistants for businesses in Johannesburg.

I noticed that [Business Name] does not have an automated booking system on your website. This means every time a potential client visits your site at night, on weekends, or when you are busy — they leave without booking, and you never know they were there.

I build AI chat assistants that:

- Answer client questions 24 hours a day, 7 days a week
- Collect booking details automatically while you sleep
- Send you an instant WhatsApp notification for every new booking
- Send a professional email summary to your inbox
- Never miss a single client enquiry again

I recently built this exact system for Habesha Celebration Events in Johannesburg and they now receive bookings automatically around the clock.

I would love to show you a quick 5-minute demo of how it would work for [Business Name]. There is no obligation and no cost for the demo.

Would you be available for a quick call this week?

Best regards,
[Your Name]
[Your Phone Number]
[Your Email]

TEMPLATE 2 — WhatsApp First Message (Short and Direct):

Hi [Owner Name] ■

My name is [Your Name]. I build AI booking assistants for businesses in Johannesburg.

I noticed [Business Name] gets a lot of booking enquiries. I can build you an AI assistant that automatically collects client bookings 24/7 and sends them straight to your WhatsApp — even while you sleep. ■

Can I send you a quick demo video? Takes 2 minutes to watch. ■

TEMPLATE 3 — Email for Restaurants and Catering:

Subject: How [Restaurant Name] can take table bookings automatically — 24/7

Hi [Owner/Manager Name],

I am reaching out because I specialise in AI booking systems for restaurants and catering businesses in Johannesburg.

Every time someone visits your website looking to book a table or enquire about a function — and nobody answers — that is a lost customer. They go to your competitor instead.

I can build an AI assistant for your website that:

- Answers table booking requests instantly at any hour
- Takes function and event catering enquiries automatically
- Sends you an instant WhatsApp for every new booking
- Never lets a customer leave without being attended to

This is not a complicated system — it is a simple chat button on your website that works like having a receptionist available 24/7.

I would love to show you how it works for [Restaurant Name] specifically. Can I have 5 minutes of your time this week?

Kind regards,

[Your Name] | [Phone] | [Email]

CHAPTER 3 CONTINUED

More Message Templates

TEMPLATE 4 — Email for Salons and Spas:

Subject: Stop managing bookings manually — let AI do it for you

Hi [Salon Owner Name],

I know how busy a salon can get — clients calling, WhatsApp messages flooding in, walk-ins arriving — all while you are trying to focus on your clients.

I build AI booking assistants that handle all your appointment requests automatically — so you can focus on what you do best.

The AI will:

- Chat with clients on your website and collect their booking details
- Ask the right questions — service needed, preferred date and time, contact details
- Send you an instant WhatsApp notification with every new booking
- Work 24 hours — so no booking request is ever missed again

Setup takes less than a week and the system runs itself after that.

I would love to show you a quick demo — no cost, no obligation. Are you available for a quick call or can I come by the salon?

Warm regards,

[Your Name] | [Phone] | [Email]

TEMPLATE 5 — Follow Up Message (if no reply after 3 days):

Subject: Quick follow up — AI booking assistant for [Business Name]

Hi [Name],

I sent you a message a few days ago about an AI booking assistant for [Business Name]. I wanted to follow up in case it got lost.

To make it easy — here is what I am offering in one sentence:

I build a chat assistant for your website that automatically collects client bookings and sends them to your WhatsApp — for a once-off fee.

If this is something you would find useful, I would love to show you a 3-minute demo. If not — no problem at all, I completely understand.

Either way, thank you for your time.

Best,

[Your Name] | [Phone]

TEMPLATE 6 — Trendy Chillax (Warm Lead — You Know Them):

Subject: An upgrade idea for your Trendy Chillas website

Hi [Name],

Hope you are well! As you know I built your Trendy Chillas website and I have been thinking about how to help you get even more value from it.

I recently built an AI booking assistant for Habesha Celebration Events that automatically chats with website visitors, collects their booking details, and sends an instant WhatsApp notification — 24 hours a day.

I would love to build the same thing for Trendy Chillas. It would mean:

- Every website visitor gets attended to immediately
- Table bookings and function enquiries come straight to your WhatsApp
- No more missed bookings when you are busy in the kitchen

Because we already have a relationship, I will give you a special rate. Can we find 15 minutes to chat about it this week?

Looking forward to hearing from you,
[Your Name] | [Phone]

The Full Proposal — What to Send After They Say Yes

ΕΙΣ ΤΗ ΔΕΥΤΕΡΑ ΤΕΜΕΛΙΑ.

- Everything in Professional
- Fully custom AI personality with your business name
- Knows your full menu/services/prices to answer client questions
- Booking confirmation sent to client automatically
- Monthly performance report

CHAPTER 5

Your Weekly Action Plan — From Zero to Paid

Follow this exact weekly plan. Do not skip steps. Each week builds on the previous one.

STEP WEEK 1 Build Your Foundation

- ✓ Finish building Ayana on habeshaevents.netlify.app and confirm it works perfectly.
- ✓ Record a 60-second screen recording showing Ayana working on your website — this is your demo video.
- ✓ Create a simple portfolio page (use Manus AI) showing what you built for Habesha Events.
- ✓ Set up a professional WhatsApp Business account with your name and 'AI Solutions' as your business.
- ✓ Write down 20 local Johannesburg businesses you want to approach — restaurants, salons, event venues.

STEP WEEK 2 Contact Your Warm Leads First

- ✓ Day 1: WhatsApp Trendy Chillas — use Template 6 from this guide.
- ✓ Day 2: Contact 5 restaurants in your area — use Template 3.
- ✓ Day 3: Contact 5 hair salons — use Template 4.
- ✓ Day 4: Contact 5 event venues or wedding planners — use Template 1.
- ✓ Day 5: Follow up anyone who has not replied — use Template 5.
- ✓ Goal: Get at least 2 people interested in a demo by end of week.

STEP WEEK 3 Do Demos and Close First Client

- ✓ Show your demo video to every interested business — share screen on WhatsApp Video or in person.
- ✓ Walk them through: here is how a client would chat, here is the WhatsApp you receive, here is the email.
- ✓ When they say they like it — send the full proposal email same day.
- ✓ Offer a small discount for the first 2 clients: 'As a launch special I am offering R500 off.'
- ✓ Once they agree — take 50% deposit before starting work.
- ✓ Goal: Close your first paying client this week.

STEP WEEK 4 Build and Deliver First Client

- ✓ Open Claude Code and use your CLAUDE.md method to build their chatbot.
- ✓ Customise brand colours, business name, AI personality, and booking fields for their business.
- ✓ Test thoroughly — make sure WhatsApp and Gmail notifications work perfectly.
- ✓ Deploy to their website — this is the most exciting moment for your client.
- ✓ Collect final 50% payment on delivery.
- ✓ Ask for a Google Review and a referral: 'Do you know any other business owner who needs this?'
- ✓ Goal: Deliver a perfect product, collect full payment, get a referral.

Your Income Projections:

1 client/month × R5,000	R5,000/month	<i>Part time — 1 day of work</i>
2 clients/month × R5,000	R10,000/month	<i>Part time — 2 days of work</i>
3 clients/month × R7,500	R22,500/month	<i>Part time — 3-4 days of work</i>
5 clients/month × R7,500 + 10 maintenance × R750	R45,000/month	<i>Full time business</i>

■ **REME
MBER**

Your cost is only your Claude Code Pro subscription. Every rand above that is profit. Building one chatbot takes 3-5 hours. At R5,000 per client that is R1,000 per hour of work.

Final Quick Reference — Everything in One Place:

TASK	HOW TO DO IT	TIME NEEDED
Find business email	Google search + hunter.io + Facebook About page	5 min per business
First contact	WhatsApp message using Template 2	2 min
Follow up	Email Template 5 after 3 days no reply	2 min
Send proposal	Full proposal email after they show interest	5 min
Get client info	Questionnaire email above	Client fills it in
Build the chatbot	Claude Code with CLAUDE.md method	3-5 hours
Deploy	npm run build → drag dist/ to Netlify	15 min
Collect payment	50% deposit before start, 50% on delivery	Immediate
Get referrals	Ask after delivery: 'Know anyone who needs this?'	2 min

You Are Ready to Start! ■

You have the skills, the tools, the templates, and the plan. Start with Trendy Chillas today — send Template 6 right now. Your first R5,000 is one WhatsApp message away.
