Spent the morning cutting 4MB of unused fonts off a client site. Load time went from 5.1s to 1.3s. No redesign. Just deleting.

Small things, compounded. That is the whole job.

Your business email is a gmail address.

Corporate clients notice. They will not say anything. They will just not reply.

We see this weekly with South African businesses. It is almost never a budget problem — it is a "nobody told me this was costing me money" problem.
