LinkedIn PROBLEM

353 chars

You post on social media and nothing happens.

Because the link goes to a homepage instead of an answer.

We see this weekly with South African businesses. It is almost never a budget problem — it is a "nobody told me this was costing me money" problem.

Name your pages like a human searches.

"Website design Pretoria" beats "Solutions" every time.

Most of our work is not clever. It is doing the obvious thing properly, and doing it first.

What would you add?

Own your source code.

If your developer disappears and your site does too, you did not buy a website. You rented one.
