

September 2026

30 days · 150 ready-to-copy posts · picture included

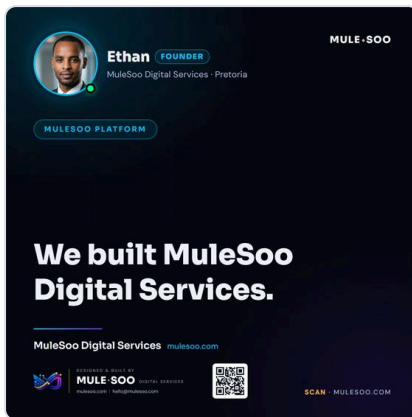

How to use this. Find today. Post the picture on the left — the file name is printed under it, and the same image lives in *marketing2/Images/*. Then copy the caption for the platform you are posting to. That is the whole routine.

Every post names real work. There are no invented statistics in this document. Where a project is still in development it is flagged *IN BUILD* — never post those as launched.

Projects this month: MuleSoo Digital Services · Habesha Celebration Events · YoYo Gym — AI Membership Platform · X-Boss Photography Studio · Shime Events & Planning · Tsemi Catering & Events · TSI AI Booking Assistant · Sena — AI Front Desk Receptionist · Yewogen Derash (ወገን ደረሽ) · Pretoria Kidane Mihret Church Platform · DR. Hospital — AI Clinic System · MuleSoo Guides & Digital Store

DESIGNED & BUILT BY
MULE SOO DIGITAL SERVICES
mulesoo.com | hello@mulesoo.com

MuleSoo2-Day-001-2026-09-01.jpg

LinkedIn

466 chars

We built MuleSoo Digital Services.

In one line: the platform you are reading this from — it books its own clients, sells its own products and runs its own admin.

The part that matters — an AI assistant that walks a client end-to-end and hands them a branded PDF agreement with a QR code on it.

What the owner ends up with: lead capture with instant email + WhatsApp alerts on every enquiry.

See it: <https://mulesoo.com>

Something X-Boss Photography Studio taught us:

Booking flows should let people edit before confirming. Every un-editable form is an abandoned form.

Two more from the same build:

- Send the confirmation as a document, not a message. Documents get saved; messages get scrolled past.
- A printed QR code beside the till still outperforms most paid ads for a local business.

All three are in the live product, not in a slide deck. See it: <https://xbossphotography.vercel.app>

#PhotographyBusiness #StudioBooking #XBoss

Instagram

279 chars

Lesson from building X-Boss Photography Studio 📸

✳ Booking flows should let people edit before confirming. Every un-editable form is an abandoned form.

Save this one — it applies far beyond this one project.

#PhotographyBusiness #StudioBooking #XBoss #BookingSystem #MuleSoo

Facebook

296 chars

A free lesson from building X-Boss Photography Studio:

Booking flows should let people edit before confirming. Every un-editable form is an abandoned form.

It sounds small. It is the difference between a system that works and one that quietly loses you money.

Something Tsedi Catering & Events taught us:

You do not always need a website. Sometimes you need one QR code that finishes the job.

Two more from the same build:

- Take a deposit inside the conversation. A booking without money attached is a rehearsal.
- Issue a verification code at booking, then scan it on the day. Cheap, offline-proof, unforgeable.

All three are in the live product, not in a slide deck. See it: <https://tsedicatering.vercel.app>
