Something Sena — AI Front Desk Receptionist taught us:

Voice AI must declare itself. It is the difference between an assistant and a deception.

Two more from the same build:

- Self-hosting the voice stack removes three per-minute vendors from your unit economics.
- Handle underpayment and duplicate webhooks explicitly — both will happen in week one.

Translate the buttons and the errors, not just the headings. Half-translated feels worse than untranslated.

Two more from the same build:
