

November 2026

30 days · 150 ready-to-copy posts · picture included

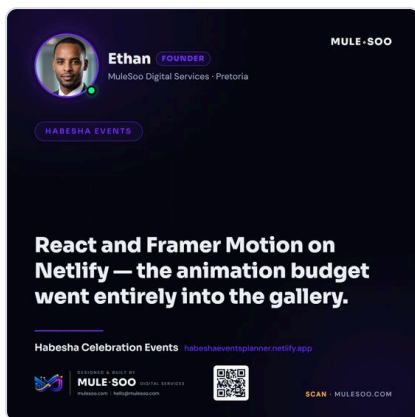

How to use this. Find today. Post the picture on the left — the file name is printed under it, and the same image lives in *marketing2/Images/*. Then copy the caption for the platform you are posting to. That is the whole routine.

Every post names real work. There are no invented statistics in this document. Where a project is still in development it is flagged *IN BUILD* — never post those as launched.

Projects this month: Habesha Celebration Events · YoYo Gym — AI Membership Platform · X-Boss Photography Studio · Shime Events & Planning · Tsedi Catering & Events · TSI AI Booking Assistant · Sena — AI Front Desk Receptionist · Yewogen Derash (ወገን ደረሽ) · Pretoria Kidane Mihret Church Platform · DR. Hospital — AI Clinic System · MuleSoo Guides & Digital Store · MuleSoo Digital Services

Something TSI AI Booking Assistant taught us:

Give the assistant your real prices. A bot that invents a number has just made a contract for you.

Two more from the same build:

- Always capture contact details before answering the deep question — that is the whole lead.
- Give it a clear escalation rule. "I do not know, here is a human" is a feature, not a failure.

All three are in the live product, not in a slide deck. See it:

<https://mulesoo.com/services/chatbot>

#AIChatbot #Hospitality #Reservations

Something Yewogen Derash (ወገን ደረሽ) taught us:

Verify identity before the first donation, not after the first complaint.

Two more from the same build:

- One campaign, one ledger. Commingled funds cannot be audited, only apologised for.
- Audit-log every admin action. The log exists to protect the honest admin, not to catch them.

All three are in the live product, not in a slide deck. Still in build — follow along: mulesoo.com
