Your website has no phone number above the fold.

People do not scroll to find you. They scroll to leave.

We see this weekly with South African businesses. It is almost never a budget problem — it is a "nobody told me this was costing me money" problem.

If that sounded familiar: DM us

The fold is a myth, the first sentence is not.

People scroll. They do not read badly-written openings.

Most of our work is not clever. It is doing the obvious thing properly, and doing it first.

💡 A slow site is a tax you pay every day

Every extra second of load time costs roughly 7% of conversions. On R100k of sales that is R7,000 a second.

A chatbot is not a robot receptionist.

It is a filter. It catches the easy 70% so a human handles the 30% that pays.
