

YouTube Channel Setup Sheet

Every field you need when creating the MuleSoo channel, ready to copy. Colours, logo, address, services and prices are taken from the live mulesoo.com project.

01 Images to upload

Studio → Customisation → Branding. All three files sit in the same folder as this PDF.

FILE	SIZE	FIELD
MuleSoo-YouTube-Profile-800x800.png	800 × 800	Picture
MuleSoo-YouTube-Banner-2560x1440.png	2560 × 1440	Banner image
MuleSoo-YouTube-Watermark-150x150.png	150 × 150	Video watermark

These are YouTube's own recommended sizes. The banner is one file that YouTube crops three ways — 1546 × 423 on phones, 2560 × 423 on desktop, the full frame on TV. All the text sits inside the phone-sized safe area, so nothing gets cut off. Check it on your phone after uploading: that is the tightest crop.

02 Name and handle

Studio → Customisation → Basic info

Channel name

Basic info → Name

MuleSoo Digital Services

Handle

Basic info → Handle

@mulesoo

Claim this first — it is the one thing you cannot change later without breaking every link. youtube.com/@mulesoo returned 404 on 28 Jul 2026, so it looked free. If it has been taken, the agreed fallback is [@mulesoodigital](#), and it must then be changed everywhere else too.

03 Channel description

Studio → Customisation → Basic info → Description · limit 1,000 characters · this uses 897

Description (English)

Paste exactly as shown

MuleSoo Digital Services builds world-class websites, AI chatbots and automation systems for businesses across South Africa and Africa.

This channel shows the work. How a business goes from "we need a website" to a live, fast site that actually converts. How an AI assistant answers customers and books jobs at 2am. How the admin you do by hand becomes a system that runs itself.

What you'll find here:

- Website builds, start to finish
- AI chatbots and WhatsApp assistants
- Booking, payment and automation systems
- Digital ID cards and QR verification
- Straight-talking advice for business owners going digital

Founded by Ena Muluken. Based in Pretoria, South Africa - building for clients across the continent.

Most projects launch within 3 weeks.

04 Amharic translation (optional)

Studio → Customisation → Basic info → “+ ADD LANGUAGE” → Amharic

Translated channel name

Amharic

ሙሌሱ ዲጂታል ሰርቪስስ

Translated description

Amharic

ሙሌሱ ዲጂታል ሰርቪስስ በደቡብ አፍሪካና በአፍሪካ ላሉ ንግዶች የዓለም አቀፍ ደረጃ ያላቸው ድረ-ገጾች፣ የ AI ቻትቦቶችና አውቶሜሽን ሲስተሞች ይሠራል።

በዚህ ቻናል ላይ ሥራውን በተግባር እናሳያለን። አንድ ንግድ "ድረ-ገጽ እንፈልጋለን" ከሚለው ተነስቶ ፈጣንና ደንበኛ ወደሚያመጣ ድረ-ገጽ እንዴት እንደሚደርስ። የ AI ረዳት ሌሊት ሁለት ሰዓት ላይ ደንበኞችን መልስ ሰጥቶ ቀጠሮ እንዴት እንደሚይዝ። በእጅ የምትሠራው አስተዳደራዊ ሥራ ራሱን ወደሚያሄድ ሲስተም እንዴት እንደሚቀየር።

እዚህ የምታገኛቸው፡

- ድረ-ገጽ ከመጀመሪያው እስከ መጨረሻው
- የ AI ቻትቦቶችና የ WhatsApp ረዳቶች
- የቀጠሮ፣ የክፍያና የአውቶሜሽን ሲስተሞች
- ዲጂታል መታወቂያና የ QR ማረጋገጫ
- ወደ ዲጂታል ለሚሸጋገሩ ነጋዴዎች ግልጽ ምክር

መሥራች፡ እና ሙሉቀን። መቀመጫችን ንጋሪታ፣ ደቡብ አፍሪካ ነው።

አብዛኞቹ ፕሮጀክቶች በ3 ሳምንት ውስጥ ይጠናቀቃሉ።

Prices are the live ones from the services page. If you change pricing on the site, change it here too — a stale price under a video is a promise you have to honour.

Default tags

Upload defaults → Basic info → Tags

mulesoo, web design south africa, website design pretoria, ai chatbot, ai automation, small business website, chatbot development, digital agency south africa, qr code design, logo design, booking system, whatsapp automation, nextjs website, digital id card, business automation

09 Order to do it in

1. Create the account and claim **@mulesoo**.
2. Verify by phone (Settings → Channel → Feature eligibility) — unlocks custom thumbnails.
3. Upload the three images (Branding tab).
4. Paste name, description, links and contact email (Basic info tab).
5. Paste keywords and set country (Settings → Channel).
6. Set the upload defaults from sections 07 and 08.
7. Add the Amharic translation.
8. In the codebase, flip youtube to live: true in lib/socials.ts — until then the footer icon and the sameAs schema deliberately hide the channel.
